La collezione che racconta la fluidità della pietra del Cardoso The collection that tells of the fluidity of Cardoso stone

Una collezione che reinterpreta l'eleganza naturale della pietra del Cardoso in versione spazzolata. Questo processo rivela una bellezza nascosta, una fluidità intrinseca, e permette di andare oltre la superficie, eliminando le asperità e addolcendo le venature che, nella loro forma naturale, appaiono più marcate, donando alla pietra un aspetto più morbido e omogeneo. Prodotta in cinque colori, FLUIDA è un omaggio a questa trasformazione. Disponibile in diverse finiture, garantisce una continuità estetica che permette di creare spazi in cui interno ed esterno si fondono in un'unica, armoniosa narrazione.

A collection that reinterprets the natural elegance of Cardoso stone in a brushed version. This process reveals a hidden beauty, an intrinsic fluidity, going beyond the surface, eliminating the harshness and sweetening the grains that, in their natural form, appear stronger, giving the stone a softer and more uniform appearance. Produced in five colours, FLUIDA pays homage to this transformation. Available in different finishes, it offers a visual continuity for creating spaces in which indoors and outdoors blend in a uniquely harmonious storytelling.
