FITNICE has been inspired by the design of architect’s Cerda Eixample district in Barcelona: a new grid pattern as an example of urban development that made urban life easier.

The colours used in the logo represent nature, providing impact and modernity.

This logo transmits the international values of Barcelona’s brand (“Gaudi’s mosaic”).

Modern / Creative / Trendy / Cosmopolitan / Mediterranean
**MATERIAL**

**Fitnice®** is a woven vinyl fabric with a recycled vinyl backing and reinforced with a structural mesh that affords a high level of dimensional stability and acoustic insulation.

**FITNICE FLOOR is:**
- Fire Resistant (Bfl, s1)
- Recyclable and recycled

Fitnice is a brand of Vertisol, a European manufacturer equipped with the ISO 14001, EMAS, Oeko-Tex® and Greenguard Children & Schools certifications. All of its features are guaranteed and backed by the prestigious ISO 9001.

At the same time, Fitnice is manufactured according to sustainable production processes and the Eco-Codice® label, an innovate in-house program for recycling rest materials and residuals.
CERTIFICATES

ISO 9001 Definition: ISO 9001 is a set of internationally agreed standards that provide guidelines for a Quality Management System

ISO 14001 is a standard for environmental management. The aim of the standard is to reduce the environmental footprint of a business and to decrease the pollution and waste that business produces.

This certificate guarantees that the product has been manufactured in the European Community and under its regulations.

The Eco-Management and Audit Scheme, EMAS, allows voluntary participation in an environmental management. It aims to promote continuous evaluation and improvements in the environmental performance of participating organizations.

The Wheel mark (Mark of Conformity) is the European regulatory marking of all marine equipment, as defined in the Marine Equipment Directive, 96/98/EC, to be placed onboard community ships.
CERTIFICATES

The GREENGUARD Environmental Institute (GEI) has established performance based standards to define goods with low chemical and particle emissions for use indoors, primarily building materials, interior furnishings, furniture, cleaning and maintenance products, electronic equipment, and personal care products.

GREENGUARD Children & Schools Certification program's for testing chemical emissions from building products used in schools, offices and other sensitive environments. This certification helps to get points to obtain the Leed certification.

The Oeko-Tex® Standard 100 provides the textile and clothing industry with a globally uniform standard for the objective assessment of harmful substances for the first time. Raw materials, intermediate and end products at all stages of processing throughout the manufacturing chain, including accessories, are tested and certified.

This is an in-house ecological program that consists in:
• Recycling of production remains produced during the manufacture process.
• Production or re-usable packing material
• Adding recycled material to floor and wall covering products.
Added Value

**Fitnice** is a high-tech, comfortable and practical material; that furthermore **provides the regular warmth of fabrics.**

1. Long-Lasting.
2. Easy Cleaning and Maintenance.
3. Easy to Install.
4. Trendy.
5. 5 Years Warranty.
6. CE Certificate.
7. Green Certificates
8. Made in CE (100% of the manufacturer process in Spain)
